Vision

A postsecondary education and training system that:

- Raises the level of educational attainment for the state's population
- Promotes the economic vitality of the state, prepares citizens for employment, and provides opportunities for personal enrichment
- Enhances community engagement and engenders civic responsibility

Policies to Achieve Results

- Funding Structure – place a greater emphasis on outcomes rather than primary funding inputs
- Performance Contracts – hold our colleges and universities accountable for meeting specific performance goals in exchange for additional funding or money
